

Crunchtime Temp Monitoring

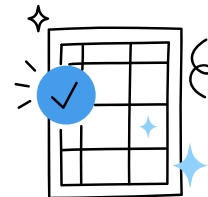

AUTOMATED TEMPERATURE MONITORING & ALERTS

Provide safe and high-quality products for customers

Save employees 60+ minutes daily per store

Ensure consistent food safety compliance and documentation

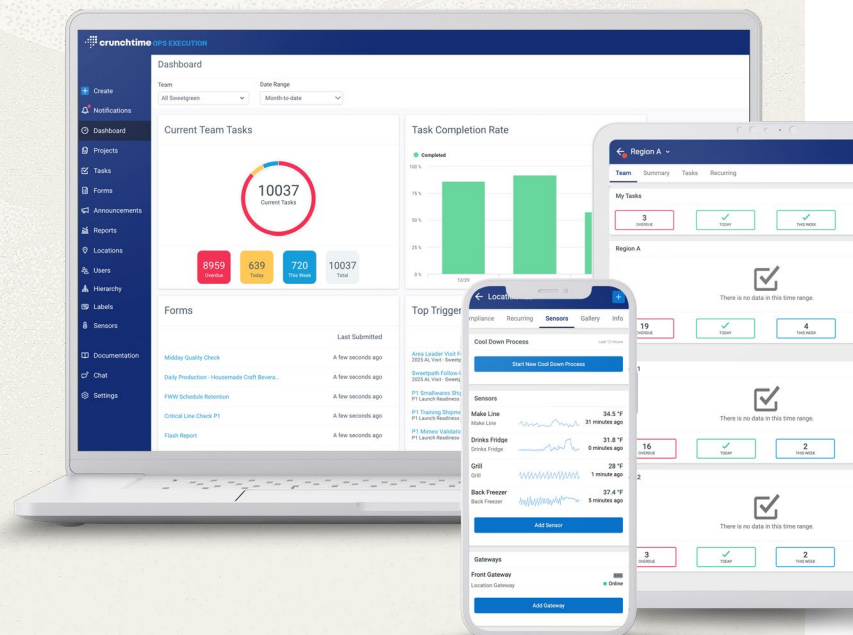

Crunchtime Temperature Monitoring lets us be proactive instead of reactive when it comes to maintaining safe food holdings temperatures in our stores.

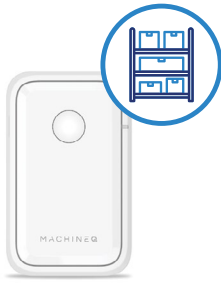

Zeb Palmer
Director of Maintenance
Hutch's Oil

Core capabilities

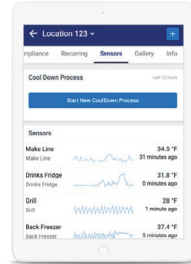

- ✓ Temperatures automatically logged and viewable in real-time from anywhere and viewable in real-time from anywhere
- ✓ Instant alerts and corrective actions for out-of-range temps
- ✓ Integrated directly with Crunchtime Ops Execution
- ✓ Easy setup and installation of sensor hardware in stores

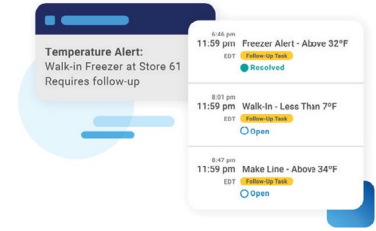

How it works

Sensor hardware is placed inside of cooling/heating equipment

Temps automatically recorded and viewable from any device

Stores/leaders notified instantly when out of temp range, follow-up tasks auto-created

Choose the hardware that works for you

Crunchtime Temp Monitoring lets you pick from multiple approved hardware vendors, with buy or lease options through several partners, including MachineQ.

MQflex 4s sensor

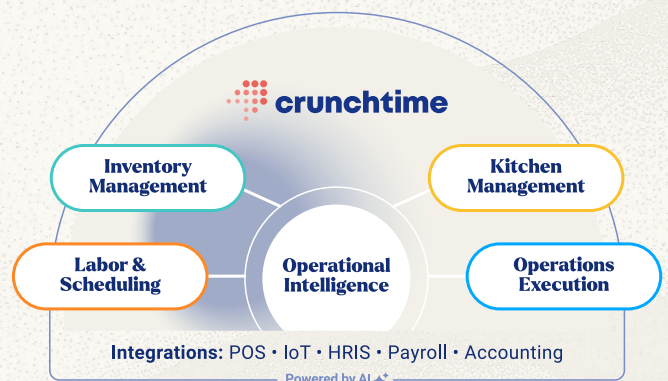

- High accuracy and superior frequency performance through steel walls and large location footprints
- Wide operating range of -40°C to +60°C
- Supports up to 10 years* of continuous use from a single, replaceable battery
- Supports firmware updates over-the-air (FUOTA) via BLE and LoRaWAN for superior performance and ongoing security enhancements
- IP65 rated enclosure, FDA approved plastics, and UL listed for safe use in harsh and highly regulated environments
- Available for purchase or three year hardware subscription
