

THE LABOR SCHEDULING & OPTIMIZATION SOLUTION!

With CrunchTime, restaurant labor management and team scheduling has never been easier. Managers can create schedules, approve staff requests, and communicate messages to relevant team members about shift openings or important updates right from their smartphone, tablet or desktop. Team members can just as easily offer, pick-up and swap shifts right from their own smartphones, tablets or desktop computers.

LABOR MANAGEMENT

Efficiently create, manage and communicate optimized team schedules
Swap and pick up open shifts, update availability and request time-off
View your schedule and time worked on any mobile device or PC

SMARTER REPORTING MEANS EMPLOYEE PERFORMANCE IMPROVEMENTS ARE BASED ON FACTS, NOT HUNCHES.

- Performance Management – Reward top performers and coach more effectively by tracking employee performance, attendance, and task completion.
- Overtime Alerts – Adjust schedules and reduce unnecessary costs by receiving system-generated alerts before overtime violations occur.
